PROBLAM STATEMENT

Students need an easy way to show their skills and projects.
A normal resume is not enough.
So, a simple website is required to display personal details,
skills, and projects clearly.

PROJECT OVERVIEW

This project is a personal portfolio website made using HTML and CSS.

It has different sections like:

- ◆ About Me – short introduction
- ◆ Skills – list of technical skills
- ◆ Projects – mini projects with details
- ◆ Contact – email and phone information

Students – to show their skills and projects.

Teachers / Mentors – to check student's progress and achievements.

Interviewers / Recruiters – to view candidate's details easily.

General Public – anyone who wants to know about me.

END USERS

TOOLS AND TECHNOLOGIES

HTML – to create the structure of the website.

CSS – to design and style the web pages.

Text Editor – Notepad / VS Code to write the code.

Web Browser – Chrome / Edge / Firefox
to run and test the website.

PORTFOLIO DESIGN AND LAYOUT

1. Header – Contains my name, role, and navigation menu.

2. About Section – A short introduction about me.

3. Skills Section – Shows my technical skill in small boxes.

4. Projects Section – Lists my mini-projects with details.

5. Contact Section – Displays my email and phone number.

6. Footer – Copyright information and portfolio name.

FEATURES AND FUNCTIONALITY

NavigationBar-Helpsmove to different sections (About, Skills, Projects, Contact).

About Section – Gives a short introduction about me.

Skills Section – Shows the list of technical skills.

Projects Section – Displays mini projects with details.

Contact Section – Provides email and phone number for communication.

Footer – Shows copyright details.

HTML CSS JS Result

```
<!DOCTYPE html>
<html lang="en">
  <head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>My Portfolio</title>
    <style>
      body { font-family: Arial, sans-serif; margin: 0; padding: 0; background: #f5f5f5; }
    </style>
  </head>
  <body>
```

5. Contact Section – email and phone.

My Skills

6. Footer Section – copyright details

HTML CSS C C++ Python

Conclusion

This HTML code provides a simple and clean template for a personal portfolio website, showcasing skills, projects, and contact information in a well-structured and visually appealing way.

Thank you!
